## Session 1- A deliberation on publishing Research papers in Scopus Journal and how to write a effective paper.

The image shows a Zoom meeting interface. On the left, a presentation slide titled "What is SCOPUS?" is displayed. The slide contains the following text:

- Scopus is an Elsevier's abstract and citation database that was launched in 2004 to improve institutions' and professionals' progress in sciences and healthcare. It is known to be the best abstraction and citation database for peer-reviewed journals.
- Peer-reviewed or refereed journals have an editorial board of subject experts who review and evaluate submitted articles before accepting them for publication. A journal may be a scholarly journal but not a peer-reviewed journal.

On the right side of the Zoom window, a grid of participants is visible, including Dr. Divya, Ishika Singh, and others. Below the Zoom window, a Google Maps location card is shown for "Gurugram, Haryana, India". The card includes the following information:

- DPG DEGREE COLLEGE, DPG INSTITUTE OF TECHNOLOGY & MANAGEMENT, Sector 72A, Sector 72, Gurugram, Haryana 122001, India
- Lat 28.425456°
- Long 77.020417°

She focused on how to write a Research Proposal and guided how to apply for the agencies for research proposal and explained the process of application.

RCCV GIRLS COLLEGE established in 1994, is Northern India's first all girls science institution for academic excellence and achievement. Today, we are evolved into a gateway to excellence, imparting education to over 100,000 girls with thousands of students availing scholarship.

The main aim of the college is to enable our students to realize their potential and self-worth so that they evolve as leader and transforming agents who make a significant contribution in all spheres of life.

RCCVGS College aims to develop girls into women of competence, compassion and conscience with ignited minds and hearts.

#### ABOUT CSTDE-2022

The prime purpose of this CSTDE-2022 is to provide basic knowledge of IPR, its importance and implications in promoting entrepreneurship and start-up ecosystem among young faculty members and scholars through FDP. IP is the outcome of human intellect, in other words we can say that intellectual property is an idea of mind that gets transformed into physical form which is commercially viable and which improves the quality of human life. Although, there are plenty of creative and innovative energies which are flowing in India but still, much of the Intellectual Property (IP) created remains unprotected. The purpose of CSTDE-2022 is to create awareness among researchers and faculty members to understand the procedures of patent filing and commercializing their product.
