Subject: Seeking permission to conduct educational training for the college youths and create awareness activities in adjacent communities through them.

Greetings from United Way Mumbai!

United Way Mumbai is a part of the 130+ year old United Way movement spanning 41 countries across the world. Our mission is to improve lives by mobilizing the caring power of communities to advance the common good.

We work closely with a network of 500+ NGOs and a large number of corporates for their CSR programmes, workplace giving campaigns and other events. Our expertise lies in identifying, designing & implementing high-impact projects in the areas of Education, Health, Income, Environment, Public Safety & Social Inclusion in both urban as well as rural communities across the country. Additional details about UWM can be obtained from the website (www.unitedwaymumbai.org).

Currently, we have been implementing the "Pragati Mitra" project supported by Amazon India. The project's main objective is to build healthier and safer

communities across a vast geography. The United Way Mumbai focuses on implementing the project by enabling the youth, the primary stakeholders, to address the critical issues in road safety, environmental sustainability, empowerment, health, and hygiene. We will do this in collaboration with key stakeholders of the community. The students will work as volunteers in Pragati Mitra to coordinate and implement activities in the community. The Pragati Mitra Project Coordinators will supervise the activities. We will execute the activities with permission from the respective higher officials such as traffic police, RTO, Municipality (Public health department), associations of doctors, etc.

The volunteer's primary responsibility will be to be involved in and execute the awareness program in the selected communities. The Project Coordinators will explain it in training. It will be an excellent opportunity for the students to understand the real problems in the community and solutions to solve them. Volunteering and working for society bring many changes to students and make them responsible citizens.

In this regard, I kindly request you accept our letter and permit us to conduct the program. Thank you, and looking forward to a positive response and a long-term association.

14-Disaster Management Talk

To increase awareness on various topics we have interactive sessions with individuals with expertise in those fields. After the recent events all over the world, a Disaster Management Talk was conducted to explain to our volunteers the causes and repercussions of such hazards. As a result of this interactive session, we will soon be holding a talk and demonstration on First Aid. We also plan to conduct mock drills in case of any emergency during college hours.
