Expected take-away CSTDE-2022:

- Introduction and overview of IPR
- Applications of different IP rights
- When to choose Patents
- Case Laws

ABOUT RCCVG:

RCCV GIRLS COLLEGE established in 1994, is Northern India's first all girls science institution for academic excellence and achievement. Today, we are evolved into a gateway to excellence, imparting education to over 1,00,000 girls with thousands of students availing scholarship.

The main aim of the college is to enable our students to realize their potential and self-worth so that they evolve as leader and transforming agents who make a significant contribution in all spheres of life.

RCCV College aims to develop girls into women of competence, compassion and conscience with ignited minds and hearts.

ABOUT CSTDE-2022

The prime purpose of this CSTDE-2022 is to provide basic knowledge of IPR, its importance and implications in promoting entrepreneurship and start-up ecosystem among young faculty members and Scholars through FDP. IP is the outcome of human intellect, in other words we can say that intellectual property is an idea of mind that gets transformed into physical form which is commercially viable and which improves the quality of human life. Although, there are plenty of creative and innovative energies which are flowing in India but still, much of the Intellectual Property (IP) created remains unprotected. The purpose of CSTDE-2022 is to create awareness among researchers and faculty members to understand the procedures of patent filing and commercializing their product.
