NSS Unit DPG Degree College, Gurgaon
Sapling Plantation Drive 2019

A special sapling plantation drive was held on 20th August 2019 at near by area of College, by the NSS students and teachers. Saplings of various herbal and other plants were planted in and around the college campus. College Principal Dr. S S Boken encouraged the students to plant and nurture at least one sapling. He said, "Environment is important for us because we receive everything necessary for life, including pure air, pure water, food and even shelter, from it. Trees give us oxygen, keep the environment cool, bring rain and provide shelter to wild animals". He quoted William Wordsworth, a great English poet, saying, "Nature is God so we must protect and preserve it". Around 50 students and 10 faculty members participated in this plantation drive.
